

Michigan Worker Death Notification

The 1st Michigan worker death of 2017 occurred on January 11, 2017. Employers and employees are urged to use extreme care and safety diligence in all work activities. The information below shares **preliminary details** about the most recent fatality reported to the Michigan Occupational Safety and Health Administration (MIOSHA). The description reflects information provided to MIOSHA at the initial report of the incident and is not the result of the official MIOSHA investigation.

Preliminary summary of incident: On January 11, 2017, at approximately 9:00 a.m., a 55-year-old crane inspector was at the facility to inspect a crane. While attempting to access the crane, the floor gave way resulting in him falling 30-50 feet to the concrete floor. EMS was called and he was transported to the hospital where he was pronounced deceased.

If you need help or assistance in ensuring your workplace is safe, MIOSHA is available with resources to help. The Consultation Education and Training (CET) Division provides workplace safety and health training and consultations to employers and employees throughout Michigan free of charge. Contact CET today at 800-866-4674 or submit a request online at www.michigan.gov/cetrca.

Every life is precious. Our mutual goal must be that every employee goes home at the end of their shift every day!
