This is an annual "get-together" which will give all safety men an opportunity of seeing friends in the same line of work... men, whom they do not get to see in the regular course of events. It is not necessary to be a member of the three sponsoring groups, to attend this luncheon. If you are working in accident prevention... or, even if you are only interested in cutting down accidents, get a ticket and join the gang. See you at the "Safety Men's Gab-fest!"
