30

ANNUAL

PROGRAM FOR THE 1960
MICHIGAN SAFETY CONFERENCE

Welcome . . .

It is a pleasure to greet you and welcome you to the 30th annual Michigan Safety Conference.

In all of our planning we have anticipated having in attendance individuals who would take an active part in all the discussions. This is the only way in which we can realize maximum benefit from the conference. Let me ask you, therefore, to take a very active part in all discussions so that while you are learning we, too, may gain from your experience.

If your schedule permits, you are invited to take part in any of the other activities which appeal to you. Let me also recommend a visit to the exhibit hall on the ballroom floor. Here you will see the latest and most modern safety equipment and devices and you will be able to see them demonstrated. This should be a "must" for everyone attending the conference.

Again let me ask you to take an active part in the conference proceedings and thanks so much for coming.

Cordially,

Harry L. Conrad
President

Safety in the Sixties!

To meet the challenge of the Sixties the Michigan Safety Conference extends this personal invitation to you to attend its 30th annual conference. The various divisions and standing committees have developed programs which will help you get your safety program for the Sixties off to a flying start.

If you will study the program carefully, I am certain that you will recognize how valuable the conference sessions will be in your own area of activity. We hope you will plan now to attend and to take an active part in the proceedings.

An advance registration form is included and we would appreciate hearing from you soon.
