PRESIDENT'S WELCOME

I am pleased that you decided to attend the 91st annual **Michigan Safety Conference**. We have over **170 volunteers** representing 14 different training divisions, who have worked very hard to put together another high-quality conference. I want to thank our volunteers and their affiliated organizations that support MSC by encouraging and allowing their staff the opportunity to volunteer for the conference and to advance the cause of workplace safety in Michigan and beyond.

This year's theme is **"Safety is Key"**. As I reflect on the global impact of the COVID-19 pandemic and the more localized impact of the catastrophic flooding across the state including the Sanford Dam failure in my own community, I cannot think of a more relevant theme. **"Safety is Key"** to good business, employee health, workplace motivation, sustainable future, public protection, environmental health and more.

"Safety is Key" may sound simple yet it's a bold statement and affects us all well beyond the walls of our workplace. At the moment, I am encompassed by how **"Safety is Key"** to my wife's cancer treatment. Safety is essential for the workers in the pharmaceutical plant developing and manufacturing cancer treatments; for those involved in the timely transportation and distribution of these products; for healthcare workers administering these life-saving drugs; for the proper disposal of biomedical waste; for patient safety; and for living a happy life with my family.

Whatever **"Safety is Key"** means to you, it is likely that you have something in common with our **2,000 plus attendees** at the **Michigan Safety Conference**. With over **120 quality education programs** and more than **209 exhibitors**, the 2022 conference will meet your needs for professional development, networking, and, most importantly, EHS solutions. Whether you are seeking engineering solutions, the latest PPE innovations, code and regulation changes, training programs, or latest hazard and risk assessment techniques, the **Michigan Safety Conference** has the expertise and network to solve any workplace EHS challenge.

We look forward to your participation in this year's conference and working together to assure **"Safety is Key"**.

Darryl C. Hill Safety Professional of the Year

John Bolde, MA, CHSP, CHEP
Munson Healthcare

John is the System Safety and Security Director for Munson Healthcare and has oversight for the safety, security and emergency management of seven hospitals, multiple clinics, and services for over 8,000 employees (munsonhealthcare.org). He has been with Munson Healthcare for over 20 years, and was a recipient of the Outstanding Leadership award in 2015.

John has been an active supporter of the **Michigan Safety Conference** and the Healthcare Division for over 20 years. John has an extensive and comprehensive safety background and is a Certified Healthcare Safety Professional (CHSP) and has made numerous contributions to the safety profession and the healthcare industry. Mr. Bolde is Past President, of the Michigan Healthcare Safety Association (MHCSA) having served two terms/5 years. MHCSA supports healthcare safety throughout the state of Michigan along with organizations such as the Michigan Safety Conference and the Michigan Hospital Association. Mr. Bolde actively participates and supports several community programs within the Traverse City area.

Being a healthcare safety leader during this unprecedented and challenging time of COVID-19, John is especially deserving of this award. Over the past two years John has been an exemplary example of safety leadership, sacrifice, and commitment! John has made significant contributions to help protect employees, patients, visitors, and the community from COVID-19 while managing other safety-security concerns.

Mr. Bolde is considered one of the state's top leaders in Healthcare Safety. He is an expert in Workplace Violence Prevention and he maintains instructor certification in non-violent crisis intervention.

Congratulations to **John Bolde** for being named the 2022 *Darryl C. Hill Safety Professional of the Year!*

Sandra S. Irion Distinguished Service Award

Sheila E. Ide
Safety Consultant

Almost as long as she has been an EHS professional, Sheila Ide has been a volunteer for the **Michigan Safety Conference**, more than 35 years. As a strictly volunteer organization, the role of its supporters is absolutely crucial to a conference which is enjoying its 10th decade in existence.

Sheila spent several years on the Exhibits committee working with vendors before accepting the position of Publicity Chair. After being elected to the Board of Directors, she continued her participation as Chair of the MIOSHA Consultation Division for 14 years. She is also a member of the Investment Committee whose long-range objectives included making the scholarship program self-sustaining and assuring solvency in the unlikely event that a conference ever had to be cancelled.

Upon retirement from MIOSHA, she continued her work for the Conference by accepting the role of Secretary, the first rung of the Executive Committee. Over the next five years she worked through the various positions until she was elected President of the 90th **Michigan Safety Conference** for 2020. However, the pandemic forced the cancellation of the conference. Sheila agreed to continue as President for a second year, supporting the Executive Director in mitigating the financial challenges of a cancelled event and helping to create interest and acceptance for a virtual conference in 2021. Sheila believed having no conference for two years could possibly damage our reputation as a premier, consistent offering. She then presided over the successful first-ever “Virtual” Conference in her second year.

Sheila continues to support the conference by stepping up in 2021 as host of the Conference’s brand-new EHS podcast series “Safety Spectrum”, now beginning its second year. She continues to be a consistent cheerleader on the value of the Conference and always takes the opportunity to invite others to volunteer or be interviewed on “Safety Spectrum”.

Congratulations to **Sheila E. Ide** for being named the 2022 *Sandra S. Irion Distinguished Service to Safety Award* winner!

CEU INFORMATION

ALL CEUs WILL NEED TO BE APPLIED FOR DIGITALLY THROUGH THE EVENT MOBILE APP

When you log in to create your profile on the mobile app you will need to choose whether you would like to receive:

- CEU — General Email Certificate
- CEU — Formal Grand Valley State University Certificate
- CEU — Wastewater Certificate

You must choose "Yes" or "No" to each. Then you will need to check-in on the mobile app for each class that you attend. (The room monitor will give you the check-in code at the end of each class).

CSPs

The Board of Certified Safety Professionals will allow one credit towards maintenance of certification for a two-day attendance at the Michigan Safety Conference. A half credit can be earned by attending one day. CSPs will be responsible for documenting their own attendance.

CIHs

Certified Industrial Hygienists can earn CM points at a rate of a) claim 3 hours for each half day of attendance, or b) 0.167 CM point per each hour of technical content in the CM areas of IH, Safety, or IH Ethics (if ethics course offered). Fractional points are allowed once the one-hour minimum is achieved for IH or Safety events (e.g. 1.5 hrs = 0.25 CM point). *Excludes* the non-technical portions such as generic welcome speeches, participant introductions, breaks, meals, networking, exhibitor time, roundtables or discussions with unspecified topics, and/or social tours.

CONTINUING EDUCATION UNITS — GENERAL

All divisions will offer CEUs through Grand Valley State University for attendance at their programs.

CHSPs

The International Board for Certification of Safety Managers will recognize one contact hour of continuing education for each one hour break-out session for the CHSP designation.

NREPs

Individuals certified by the National Registry of Environmental Professionals are allowed to apply CEUs obtained through documented attendance at the Michigan Safety Conference to NREPs continuing education requirements.

CRSPs

BCRSP has awarded attendance at the Michigan Safety Conference 1.0 CMPs. Call the headquarters office to obtain the CMP approval code. MCPs are accrued by Canadian Registered Safety Professionals who are certified by the Board of Canadian Registered Safety Professionals.

DIPLOMATE ENVIRONMENTAL ENGINEERS

The American Academy of Environmental Engineers will recognize participation in the Michigan Safety Conference as a legitimate continuing education activity for its Diplomates (certified engineers).

PROFESSIONAL EMERGENCY MANAGER (PEM)

The Michigan State Police, Emergency Management and Homeland Security Division will accept a certificate of attendance from the Michigan Safety Conference for the "Attend a Relevant Conference" Annual Continuing EM Participation credit, for the Professional Emergency Manager designation.

WASTEWATER CECs

The State of Michigan, Department of Environment, Great Lakes and Energy will recognize .1 CEC per class attended (up to one total over two days). To obtain the certificate, select Wastewater CEU on the mobile app when you log in to your profile, and then be sure to check-in on the mobile app for each class you attend.

COVID 19
CORONAVIRUS
DISEASE

STOP THE SPREAD OF GERMS

Help prevent the spread of respiratory diseases like COVID-19.

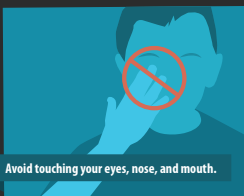

Avoid close contact with people who are sick.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Avoid touching your eyes, nose, and mouth.

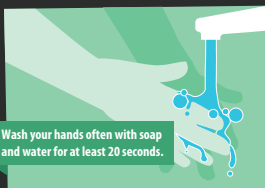

Clean and disinfect frequently touched objects and surfaces.

Stay home when you are sick, except to get medical care.

Wash your hands often with soap and water for at least 20 seconds.
