Special Recognition Award

Barton G. Pickelman, CIH

Director, Michigan Occupational Safety and Health Administration (MIOSHA)

Barton G Pickelman was appointed Director of MIOSHA on October 5, 2016. He began his MIOSHA career as a compliance officer and also served as ergonomic specialist, safety and health manager, and MIOSHA deputy director.

As Director, Bart oversees all aspects of the MIOSHA program, which includes occupational safety and health compliance in general industry and construction, and the outreach activities of the Consultation Education and Training Division. The MIOSHA program also includes the Radiation Safety Section that is responsible for the registration of over 29,000 x-ray machines.

Bart is a Certified Industrial Hygienist (CIH) with over 30 years of experience in occupational safety and health in both the private and public sectors. Bart has demonstrated strong leadership through his administration of the MIOSHA program and its more than 200 employees. Bart has a true passion for the MIOSHA mission of helping protect the safety and health of Michigan workers.

As part of that passion, Bart is avid supporter of the **Michigan Safety Conference:**

- He participates in the annual memorial done on Tuesday during the conference prior to the keynote. He reads the names and ages of those lost in a workplace accident in the prior year.
- He speaks at the annual MSC Coffee with MIOSHA.
- He supports his staff's involvement in MSC division, educational program and committee work.
- He supports his staff's attendance at the conference.
- He allows MIOSHA to promote the MSC conference on their training calendar, regular emails, and through their inspectors.
- He speaks at the Conference every year.

For those reasons and more we are happy to present Bart with a *Special Recognition Award*.
